

Re-opening of Anse Mondon trail

06-October-2018

The Anse Mondon trail located in the enchanting nature reserve in the northeastern part of Silhouette island officially re-opened on Sunday September 30 following restoration by the Islands Development Company (IDC), the Island Conservation Society (ICS) and team members of Hilton Labriz Resort & Spa.

Representatives from the above named organisations have been working side by side for several months to ensure the safety of the hiking trail while trying to protect the island's many endemic plants and animals. New signboards for guidance and information about the flora and fauna were erected along the trail for hiking fans and nature lovers to discover the stunning sights and spectacular views properly and in a safe and well guided way. With nature growing very fast and thick in the tropical rainforest of Seychelles, the trail needs to be constantly maintained to keep the paths clear.

On this occasion, the press, a group of notable Seychellois personalities and a group of motivated hikers as well as some guests at the Hilton Resort and team members were present to inaugurate the trail.

Chief executive of ICS, Michelle Murray, had the honor of cutting the ribbon symbolising the official re-opening of the Anse Mondon trail, followed by a hike led by the general manager of Hilton Labriz Resort & Spa, Andre Borg. The youngest hiker was little Keanu Bastienne, who tried his best to keep up with the pace of all the participants.
